1. The reference to the applicant's 132 declaration is noted but the examiner is required to timely act on RCEs as though they were amended cases.

- 2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
- A. There is not basis for "are formulated to provide a paint containing at least a stoichiometric ratio of isocyanate groups to hydroxyl groups with no more than 30% of the hydroxyl groups being pre-reacted with isocyanates" in the originally filed specification. The entire specification was examined for such basis, including the portions set forth by the applicant as supporting this amendment but no such limitations are seen explicitly nor implicitly in the originally filed specification.
